Glass Mounting Kit for IPORT Surface Mount

Product Code: SO-70720

Surface Mount Glass Mounting Kit Best Practices

Best Practices:

-Clean glass surface with alcohol and dry before applying adhesive strips

-Avoid adhering to frosted glass

-Avoid ambient temperatures exceeding 40º C for long periods of time

-Apply pressure to entire assembly for at least 2 minutes when Applying to glass

-Ensure entire surface area of adhesive is bonded with glass before applying vinyl backing (can determine by looking behind glass inside of conference room and citing any gaps)

-If needed, utilize additional adhesion strips in the box for additional bond.

Adhesive Side

Cover Side

3 x different sized Covers with adhesive sitting in on the edges.

Adding Additional Adhesion Strips to Surface Mount - Mounting Bracket

If needed, utilize additional adhesion strips in the box for additional bond

Default Strips
Additional Strips

Step 1

Adhere the adhesive strips on the back of the Surface Mount bracket as shown.
Step 2

Cut a piece of the adhesive strip where the lightning cable will route behind Surface Mount.
Step 3

Drill a 3/8" small hole and route the cable down the aluminum channel and out the hole. Make sure there is enough length.
Step 4

Connect the iPad and place it in the bezel. Attach the bezel to the bracket. Adhere the Surface Mount bracket to the glass close to the channel.

Step 5

Adhere the backing label to the oposite side of the glass to hide the back of the Surface Mount and iPad.
