# Hesperus™ Series

UNISON™ 240V SWITCHES AND POWERPOINTS

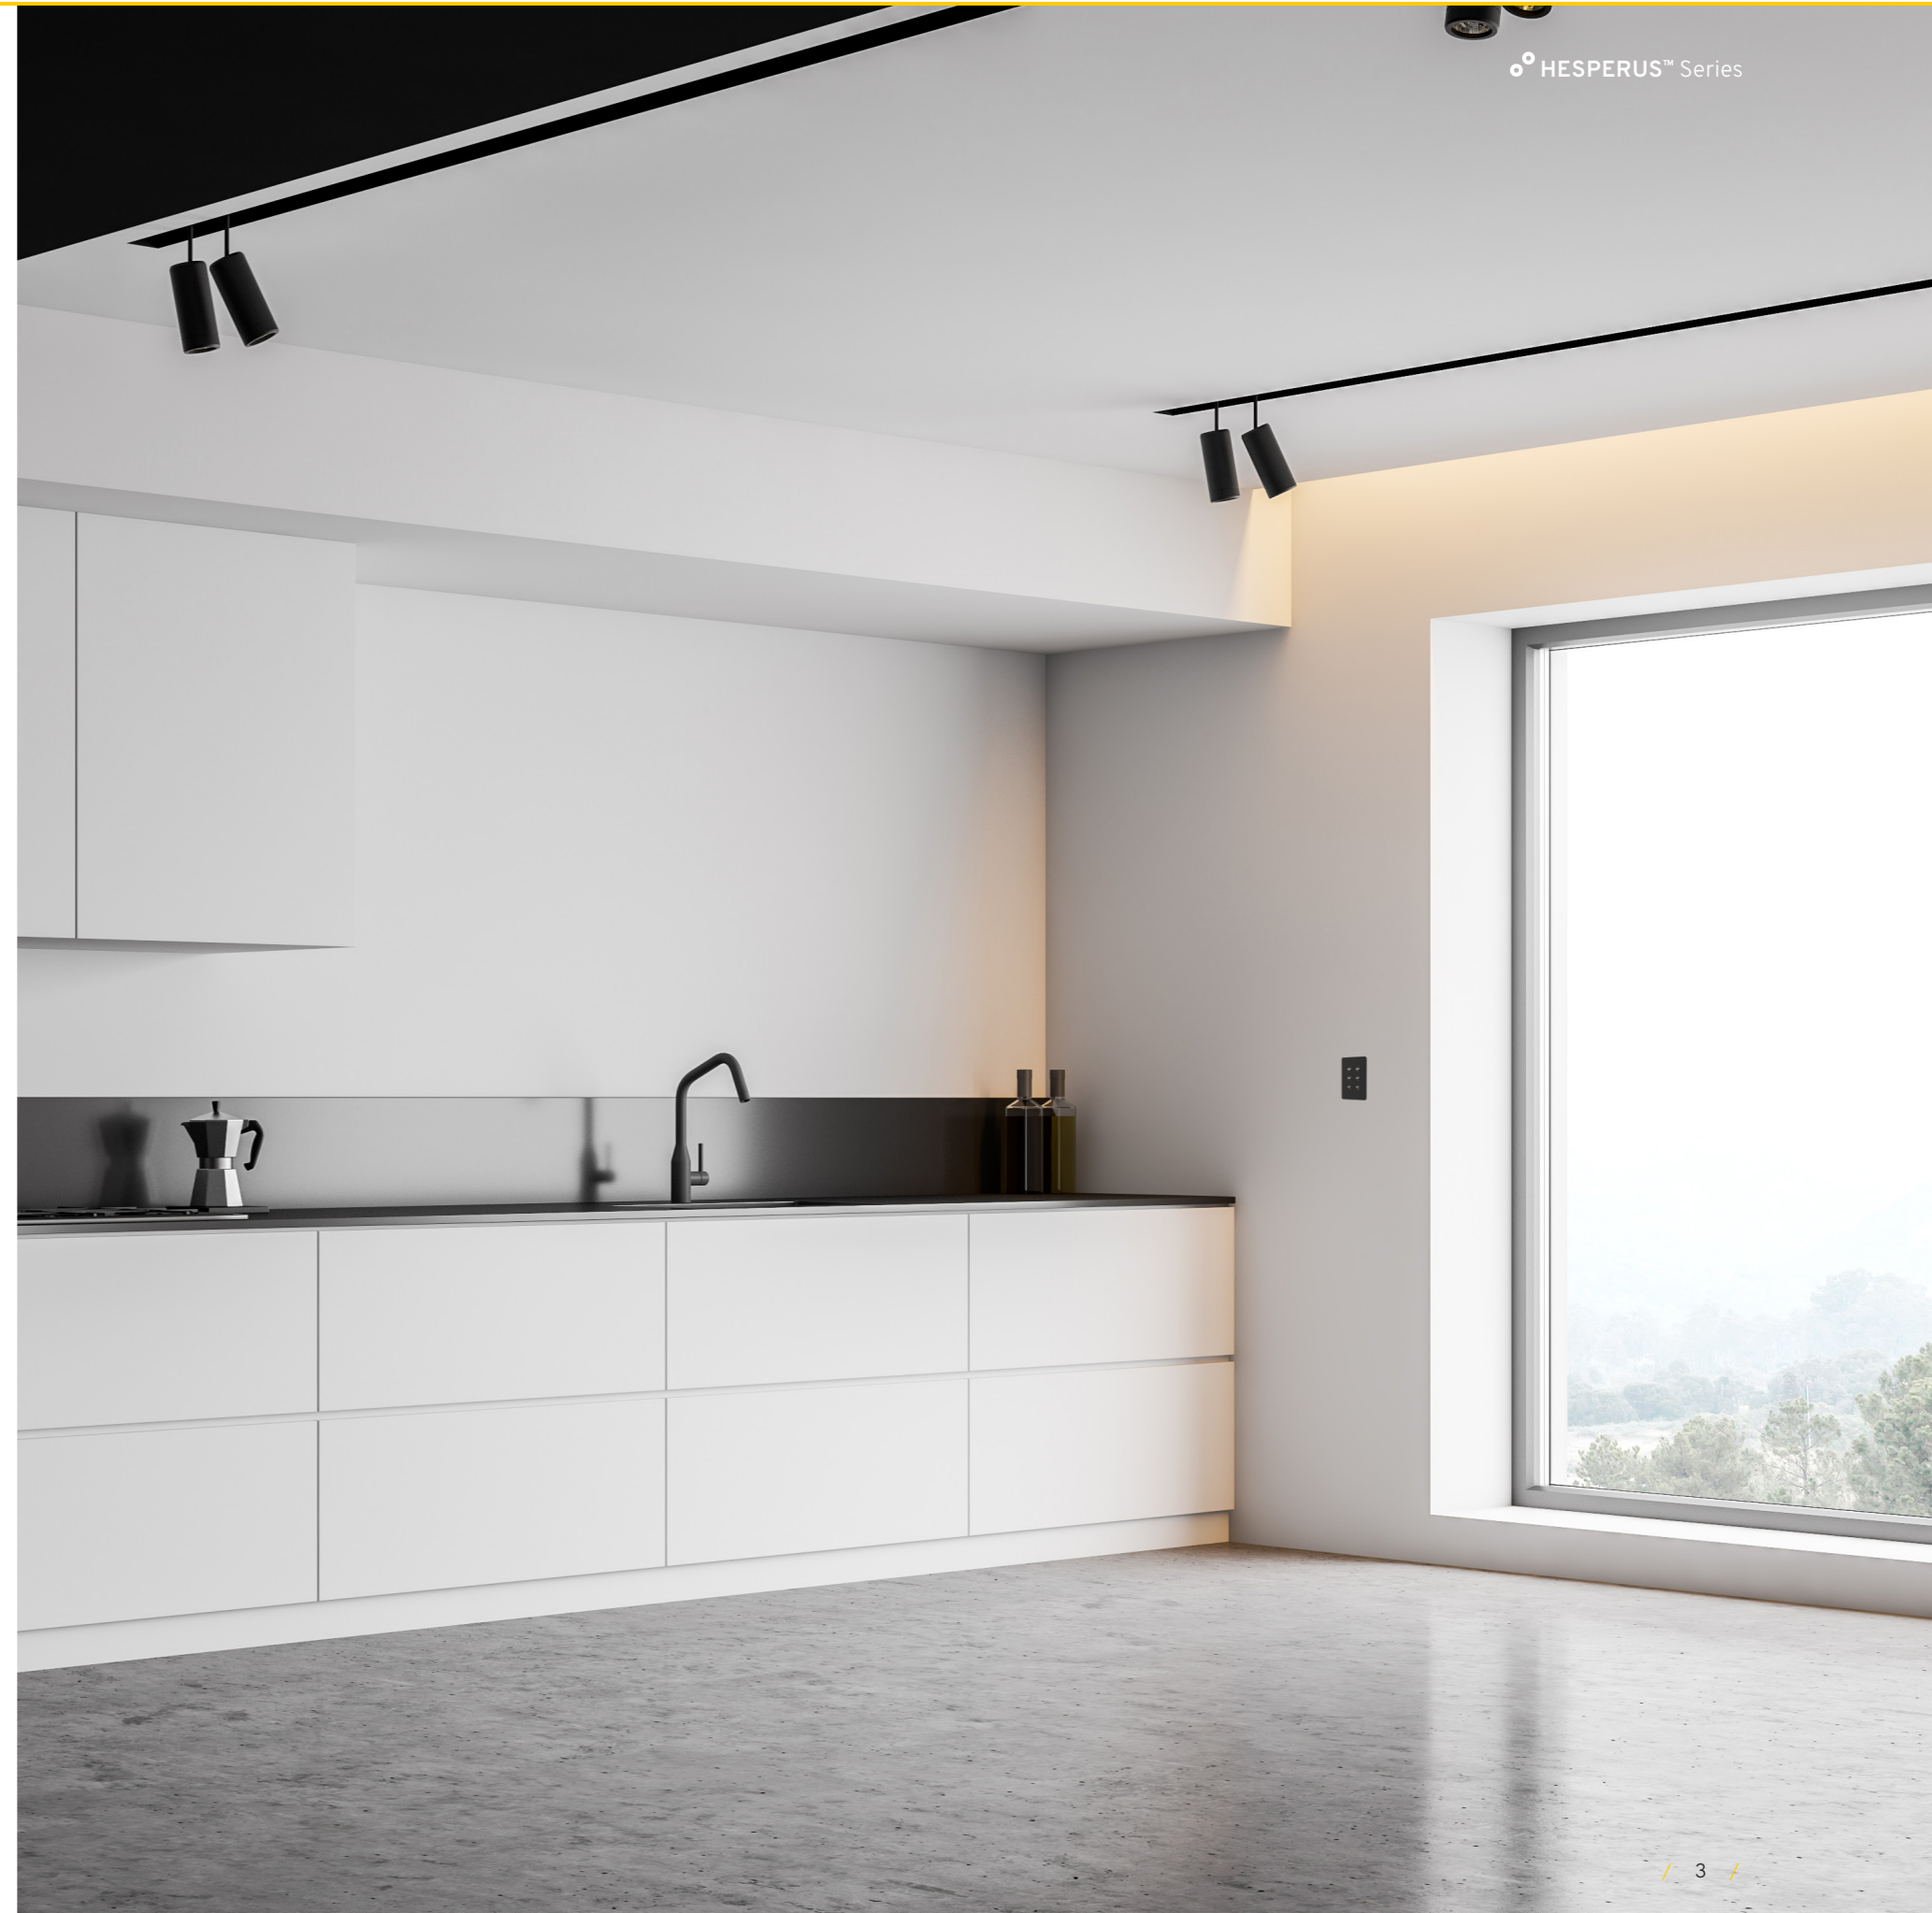

## Inspirational design

KASTA Technologies has created a series of products that embody the essence of design, attention to detail, cutting-edge technology and innovation.

The Hesperus™ Series of Unison™ 240V switches and powerpoints offer a contemporary design that was created to be adaptable to suit changing interior design and aesthetic trends.

KEY COLLABORATOR:  
*Piero Quintiliani - PQ Design Studio, Pisa, Milano ITALY*

*Instantly enhance  
your interior spaces*

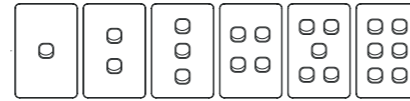

## Unison™ switches

The Hesperus™ Series of Unison™ switches feature a modern, slim design with a luxury glass-look finish. These switches will instantly upgrade interior spaces and have the option of being simply retrofit to existing wall mount accessories.

# Take lighting control to the next level

## Smart lighting control

KASTA smart dimmer and switch relay mechanisms simply clip into the Hesperus™ Unison™ wall plate and give wireless push button control of your lighting circuits (also controllable via the KASTA app).

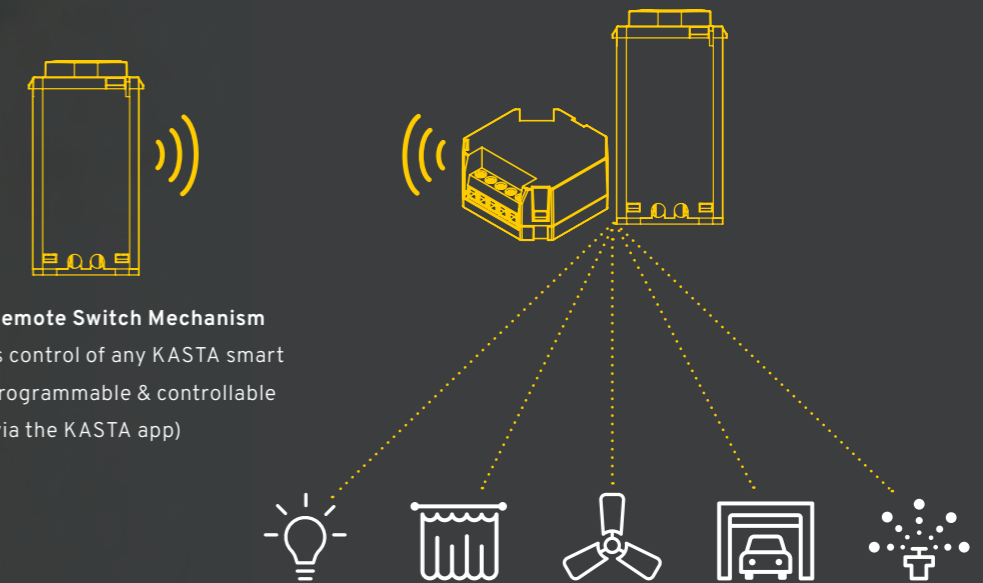

**KASTA Dimmer Mechanism**  
for wireless dimming control of a LED dimmable lighting circuit

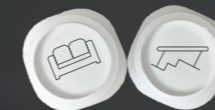

**KASTA Switch Relay Mechanism**  
for wireless ON/OFF control of a LED lighting circuit

## Smart whole-home control

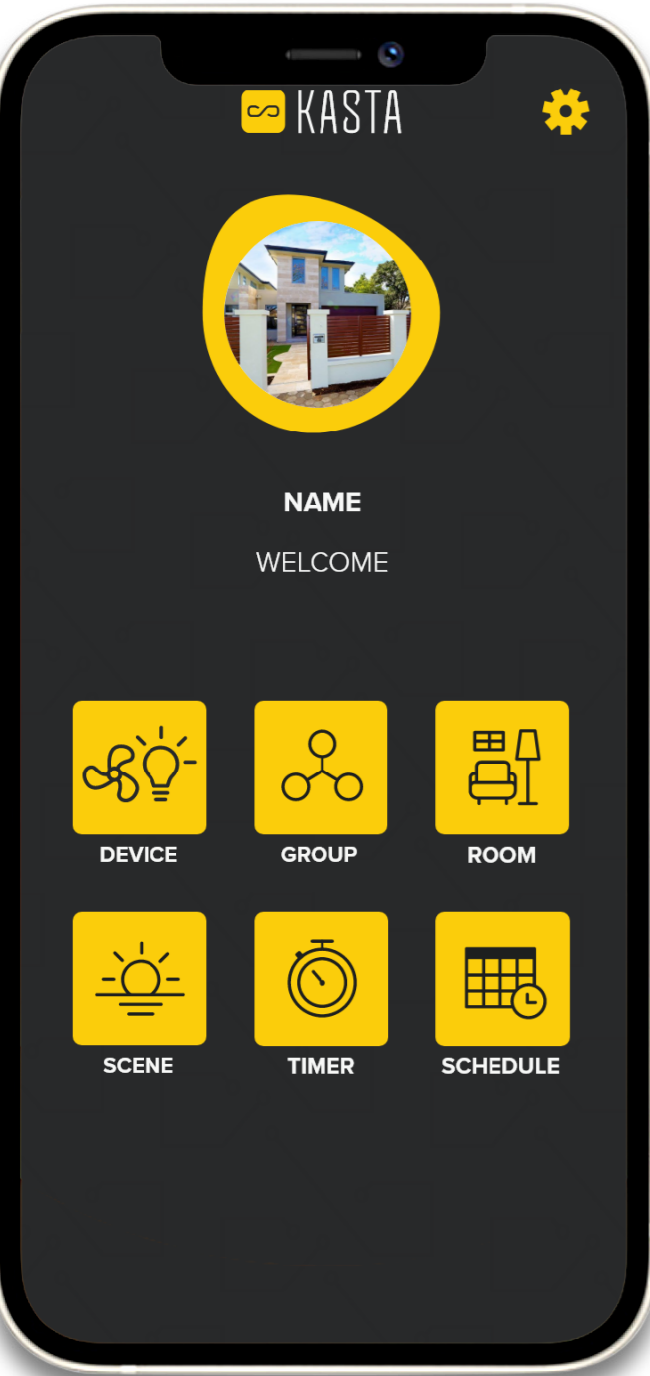

By using a KASTA remote switch mechanism in the Hesperus™ Unison™ wall plate, you can control any KASTA smart device wirelessly and create groups, scenes, schedules and timers that can each be operated from a single push button.

**KASTA Remote Switch Mechanism**  
for wireless control of any KASTA smart devices (programmable & controllable via the KASTA app)

Customise your remote switch push buttons with **KASTA Pictogram button caps** for easy identification of devices, groups, rooms and scenes. Visit [kasta.com.au](http://kasta.com.au) to view the full range.

## KASTA app

Living **Enhanced** starts at your fingertips - just one touch can take control of your whole home ecosystem.

Compatible on both iOS and Android platforms across all smart phones and tablet devices.

Designed to work seamlessly throughout your home environment, connecting to your smart devices and creating limitless possibilities to personalise and control your space in one simple, intuitive app.

Control and personalise your whole home; opening the garage door, turning lights on, opening curtains, controlling TV power, switching on irrigation, controlling air movement and temperature, and much more.

## Control your space wirelessly ))) with the KASTA app and range of smart control devices.

Control your home ecosystem with KASTA smart mechanisms that fit perfectly into our Unison™ switch plates. By using these clever wireless remote switch mechanisms with any KASTA smart surface sockets or modules, you can then also control your devices through the KASTA app, or via Voice Control if paired with the KASTA Cloud Connect Gateway.

Interested in **KASTA smart control**? Visit [kasta.com.au](http://kasta.com.au) to find out more.
