

BLAZE

BY SONANCE

WEBINAR

An introduction to Blaze by Sonance ranges:
Amplifiers and Speakers

Dear Valued Partner

Amber Technology invites you to join a live webinar with **Paxson Laird, Director of Sales Engineering, Sonance Professional**, presenting directly from the United States.

This session will serve as an introduction to the Blaze by Sonance range, designed for professional integrators seeking high-performance audio solutions.

Explore how Blaze amplifiers and speakers deliver:

- **Exceptional sound quality across commercial and residential projects**
- **Scalable solutions for installations of all sizes**
- **Flexible integration with control systems and DSP**

Paxson will guide you through:

- **An overview of the Blaze product portfolio**
- **Key features and performance benefits**
- **Practical application insights to help you confidently specify and deploy Blaze solutions**

Wednesday, 1 April | 11am - 12pm NZDT

Hosted by Amber Technology
